

Advice about Revocation

The application to a training class is not binding for the student. With the application the instructor is being informed about the application and will contact the student at short notice. The scuba diving training contract will be conducted between the instructor and the student directly. For the detailed procedure please refer to our General Business Conditions, which are part of the contract and guide you through the process.

Nevertheless the student is entitled by the law to revoke his application within a period of two weeks without any reasons in a formal declaration to "Coastal Development & Marine Consulting Ltd & Co KG - Dept.: InnerSpace Explorers" via letter, fax or e-mail. This period begins with the student's recognition of this advice. To meet the deadline the posting of the revocation is the significant action. The revocation period ends within two weeks time or when the scuba dive training commences.

The revocation is to be sent to:

Postal Address:

Coastal Development & Marine Consulting Ltd & Co KG, Dept.: InnerSpace Explorers,
Freidankstraße 3a, 81739 München,

E-mail: hq@is-expl.com

Consequences of Revocation

In the case of a valid revocation both partners of the contract have to revert back the performed benefits. If this is not possible, a compensation of value has to be applied.
